

EXTENSION OF

CONTRACT ON THE CLEANING OF THE SCHOOL AND ADMINISTRATIVE BUILDING OF DALABYGGÐ WITH ADDITIONS

Article 1

This extension is based on the contract on the cleaning of the school and administration building of Dalabyggð signed 28.07.2023. The contract included a provision for extension that contracting parties have decided to use and is explained here with additional clarification.

Article 2

This extension takes effect immediately upon signing and is valid for one year, from 2026 to 2027.

Article 3

At the time of signing this extension, the unit price is as follows:

Building	Unit price (per day)	
Auðarskóli (the school)	23.862	ISK
Administrative building	18.000	ISK
Dalabúð	17.907	ISK

The contract price above is revised on January 1 and July 1 each year, based on the consumer price index, and remains unchanged in between. The index of the offer is the consumer price index for financial indexation and in January 2026 it is 658,2 points (see www.statice.is). The contract price will be revised for the first time on July 1, 2026.

Article 4

Additions to the contract are as follows:

The contractor will not clean vandalism/graffiti without prior approval. This includes anything that is considered to be deliberate writing, drawing or scribbling on surfaces that the contractor's procedures require to be cleaned. For example, desks will only be

cleaned for hygiene reasons, fingerprints and anything that is considered to be accidental.

If classrooms are not prepared for cleaning, the affected areas will not be cleaned. For example, the floor will not be cleaned under a desk if the chair is not put up, as verbally agreed previously during the contract period before this extension.

Article 5

Other articles of the agreement from 2023 to which this extension is supplementary remain in force.

This extension is made in two copies, and each party keeps their own copy.
